DR. SCHENCE'S PULMONIC SYRUP.

This great medicino cured Dr. J. H. Bounness, the Proprietor, of Pulmonary Communition, when it had seemed its most tormidable aspect, and when speedy death appeared to be inewitable. His physicians prononneed his case incurable when he commenced the use of this simple but powerful tennely. His health was restored in a very short time, and no return of the disease has been apprehended, for all he symptoms quickly disappeared, and his present weight is more than two hundred pounds. #Since his recovery, he has devoted his attention exclusively to the cure of Consumption and the diseases which are usually complicated with it, and the cures effected by his medicines have been very numerous and truly wondered. Dr. Songworg makes professional vicits to several of the larger cities weekly, where he has a large concourse of patients, and it is traily astonishing to see poor conrumpt that have to be iffed out of their carriages, and is a few mouths healthy, robust persons.
